PARTS & SERVICES

Magneti Marelli Elaborazioni 1919 products are dedicated to enthusiasts who want to enhance their vehicles, creating their own unique and recognisable style.

Far removed from the philosophy of mass production, this range offers an opportunity to bring together various elements in order to elegantly increase a car's performance.

ADDITIONAL MODULES

Magneti Marelli Elaborazioni remote control units can be paired with any additional control unit, granting you full control of the power or response of your car at any moment.

Switch the additional control units on or off when you want by pressing the unmapped button, instantly returning the car to its default state and feel the difference.

Otherwise, select the button you have mapped as desired and enjoy your driving experience to the full.

And if your engine allows for multiple maps, the choice of which to install and use is yours.
