

SHOCK ABSORBER **PROTECTION KITS**

Marelli, one of the leading OE suspension manufacturers, offers one of the most complete ranges of shock absorbers for the aftermarket, both for cars and LCVs, covering a wide range of applications and offering solutions for every type of vehicle.

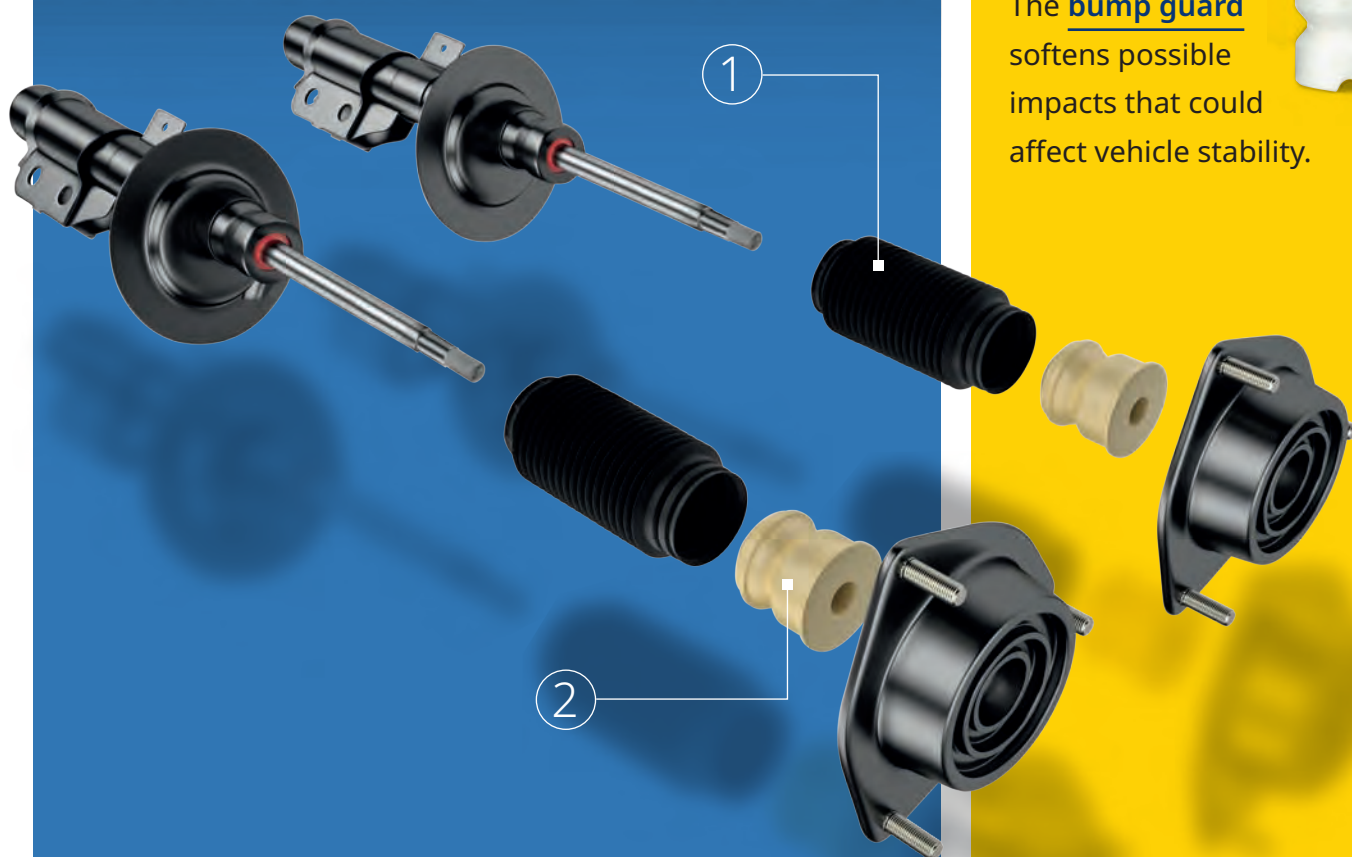

The product offer has been expanded with the availability of protection kits consisting of bump guards and dust covers.

MARELLI**

PARTS & SERVICES

Thanks to this component,
and spending less, the shock
absorber is protected and
the product lifecycle is extended

Tests show that shock absorber
lifetime doubles and vehicle comfort
and safety are significantly increased.

1 DUST COVER

The dust cover protects the shock absorber – in particular the stem and the oil seal – from dust, road debris and from atmospheric agents such as water and ice.

2 BUMP GUARD

The bump guard softens possible impacts that could affect vehicle stability.

Further product information, cross references
and applications are available on TecDoc.
